

vInnovate Technologies

ANNOUNCES THE LAUNCH OF

The logo for vLEARN LMS is displayed in a stylized, colorful font. The word 'vLEARN' is in purple and yellow, and 'LMS' is in yellow. A small speaker icon is positioned over the letter 'A' in 'LEARN'.

LEARNING MANAGEMENT SYSTEM

Traditional Management Information Systems added the management of learning as an after-thought ...

(remember trying to get your MIS to support remote learning during the Covid-19 school closures?)

vLEARN LMS

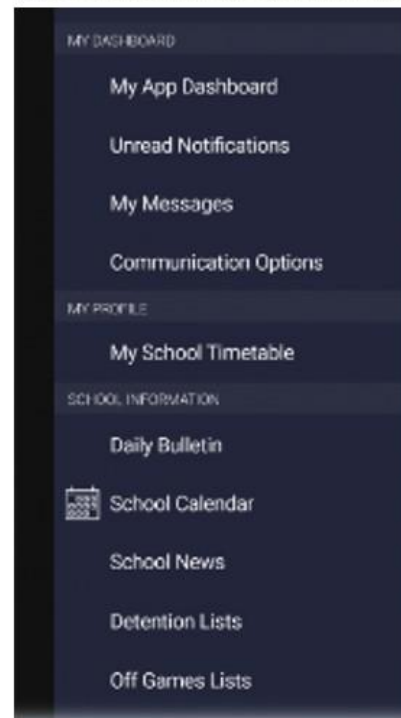

... puts it firmly at the heart of the system.

You've only got to compare the teacher menus of a typical school MIS and the vLEARN teacher menu to understand the difference.

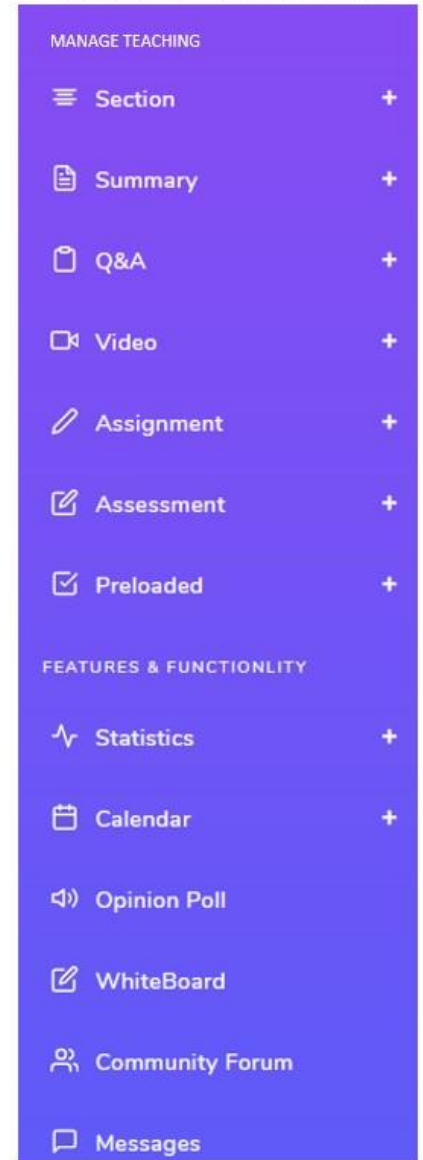

The whole of the vLEARN menu is dedicated to managing a teacher's day-to-day needs. The necessary admin is kept in the background.

Not surprising really, since the origins of LMS (Local Management of Schools) was in making the school office and finances more efficient!

LEADING MIS SYSTEM TEACHER MENU

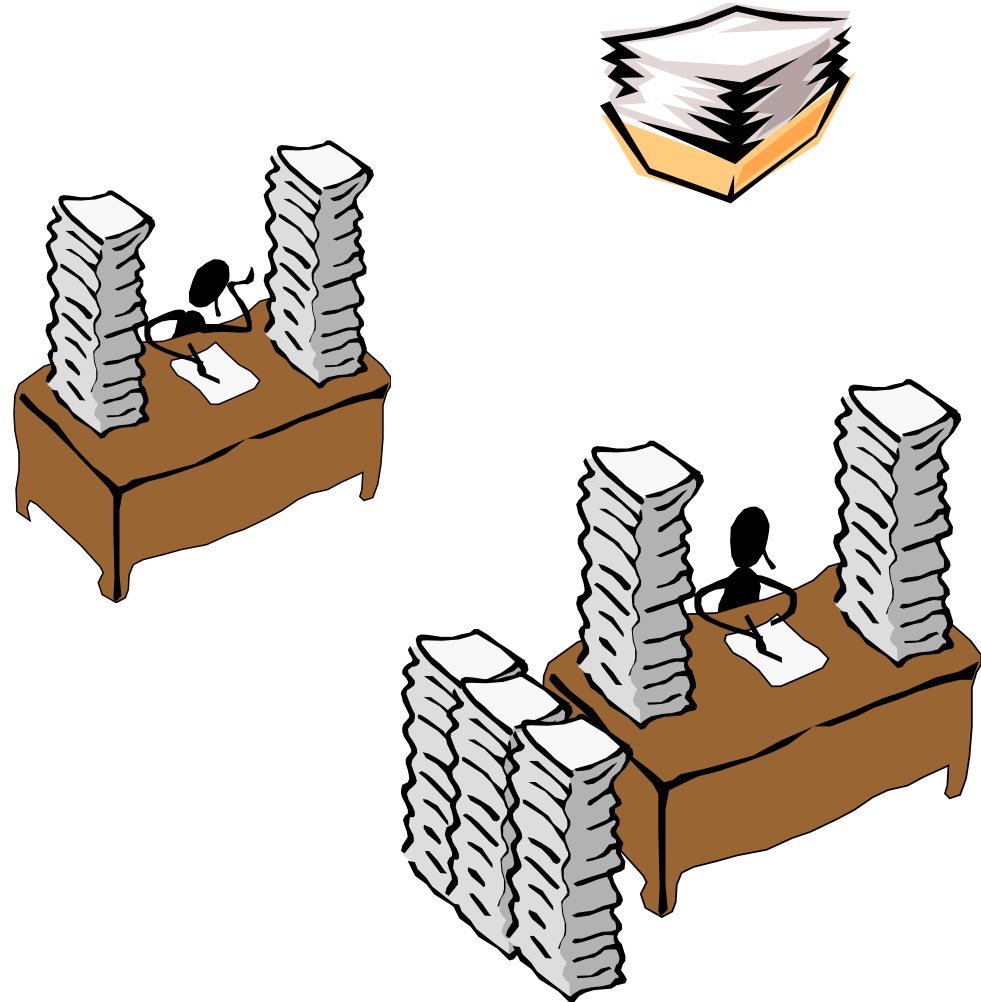

vLEARN LMS TEACHER MENU

Teachers prepare, distribute, mark and report on masses of information every day ...

- Schemes of Work
- Lesson Notes
- Assignments
- Homework
- Marks and Grades
- Assessments
- Test results
- Reports

It is a time-consuming management headache!

vLEARN LMS

has the cure!

vLEARN allows anyone to create, track, manage and distribute learning material of any kind

vLEARN provides features and functionality for administration, documentation, tracking, reporting and delivery of educational courses at any level

vLEARN delivers and manages content, and handles student registration, online learning administration, lesson delivery, learning support, whiteboard presentations, messaging, meetings, tracking, assessments, reporting and more

So how much does all this functionality cost?

A lot less that you might think.

Just look at our launch offer
