

# LegAlcy

Makes Case Management Smarter

Transform workflow chaos into pinpoint efficiency with AI-powered legal services

# The Bottlenecks in Traditional Workflows

## Manual Inefficiency

Fully manual tasks creating massive inefficiencies

## Legacy Limitations

Traditional CMS couldn't solve complex legal analysis

## Time Drain

Paralegals spending countless hours on document review

## High-Stakes Burden

Overwhelming workload in BP demands and court orders

## Strategic Cost

Time-intensive, costly, and error-prone processes diverting professionals from strategic advocacy

# The Intelligent Case Management Platform

## Filling the Gap: From Traditional CMS to AI Core

80%

### Operational Efficiency

LegAlcy serves as intelligent core that centralizes case information and automates administrative burdens.

- Centralized case repository
- Automated document processing
- Streamlined workflow automation

95%

### Risk Reduction

Automated document analysis, proactive deadline tracking, and real-time case intelligence.

- Automated document analysis
- Proactive deadline tracking
- Real-time case insights

90%

### Strategic Focus

Empower High-Value Advocacy by freeing attorneys from administrative tasks.

- Reduced administrative burden
- Enhanced strategic planning
- Higher-value legal work

**Transforming traditional Case Management System into Intelligent Case Management Platform**

# Why Choose LegAlcy

## The Digital Shift: From Legacy to AI-Powered

### Manual Document Review

Human lawyers spend 80% time on document review. Accuracy: ~60%. Average review time per contract: 4 hours.

### Traditional CMS

Basic document management systems reduce search time by 30%. Accuracy improves to 75% with standardized templates.

### AI-Assisted Analysis

Machine learning cuts review time to 30 minutes per contract. Accuracy reaches 92% with human oversight.

### Full Automation

End-to-end AI processing achieves 99.5% accuracy in 5 minutes. Handles 1000+ contracts daily with continuous learning.

**BP (Bills of Particular) Drafter**

**Court Order Scheduler**

**Document classifier**

**Case Companion**

**Legal Document Analyzer**

**Legal Transcriber and QA**

# Automate High-Stakes Tasks

## BP (Bills of Particular) Drafter

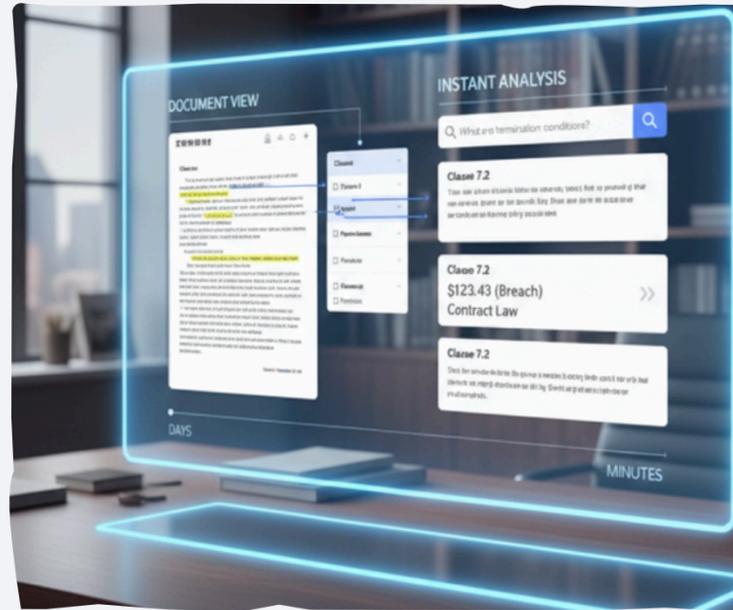

- Transform BP drafting from days to minutes
- Instantly reviews case facts and extracts necessary details
- Drafts accurate, legally compliant demands every time

## Court Order Scheduler

- Guarantees deadline certainty with unmatched speed
- Reads and analyzes critical deadlines automatically
- Integrates hearings directly into your calendar system

# Instant Clarity & Insight

## Document Analyzer

- Summarizes complex legal texts instantly
- Answers specific content questions accurately
- Cross-references relevant laws and clauses

## Case Companion

- Your instant insight engine for case files
- Delivers quick summaries and real-time updates
- Provides critical insights immediately upon query

# Eliminate Administrative Burdens

## Document Classifier

- Automatically reads and sorts incoming legal documents
- Tags documents into correct case folders
- Unmatched speed and accuracy in organization

## Legal Transcriber and QA

- Converts spoken legal content to accurate text
- Extracts key points from depositions and hearings
- Generates concise summaries automatically

# From Time Drain to Strategic Leap

See how AI-powered automation transforms traditional legal workflows into efficient, accurate processes

Workflow Area	Manual Process	AI-Powered Result	Efficiency Gain
Document Understanding	Hours spent reading lengthy documents	Immediate concise summaries in seconds	90% time reduction
BP Drafting	Laborious start-to-finish human process	Accelerated auto-drafting with case data	80% faster completion
Case Analysis	Manual review and cross-referencing	Instant insights and pattern recognition	75% productivity boost
Deadline Tracking	Manual calendar entries and checks	Automated extraction and scheduling	100% accuracy improvement

# Eliminate Administrative Burdens

## Zero Disruption Implementation

LegAlcy integrates seamlessly with your existing Case Management System through secure APIs

### Secure APIs

Enterprise-grade security ensures data protection and compliance with legal industry standards

### No Migration Needed

Delivers immediate performance enhancement without disruptive system changes

### Instant Upgrade

Transforms traditional systems into Intelligent Case Management Platforms instantly
